

Nanosystems | Take IT care

Software is our business and our passion.

We create tools to prevent and solve your problems with **IT management, support** and **cybersecurity**.

OUR HISTORY

Four decades of innovation

1986

Foundation

Nanosystems is founded as an IT systems integrator and consultant, serving SMBs and IT professionals.

2006

Uranium Backup is launched

Our shift into software begins with our first product in the **Backup** industry.

2013

Supremo is launched

Our **Remote Support** software debuts and becomes one of the most reliable in the world.

2022

Supremo Console launches

IT teams and MSPs monitor and control Supremo and Uranium Backup from a single Console.

Today

A complete IT stack

Our software protect and connect hundred of thousands of users all over the world.

TRUST AT A GLANCE

Nanosystems in two numbers

Let’s build a long-lasting, connected and widespread **IT ecosystem** together.

30K +

Active customers

150 +

Countries using our software

MISSION AND VISION

What drives us

Our mission

We develop and deliver software for **IT teams**, **MSPs** and **private users**.

Our aim is to create innovative, yet cost-effective software to **solve problems** and improve the productivity of businesses and individuals.

Our vision

To empower people through **simple**, **accessible**, and **affordable solutions** that promote equal access to technology.

HOW WE WORK

Your technology partner for powerful services

Turning our passion for software into concrete solutions.

Customer First

Simplicity

Security

Innovation

OUR PORTFOLIO

One ecosystem. Zero friction.

Supremo

The flexible and affordable solution for **remote monitoring, control and support**.

1.4+ millions active users everyday

Uranium Backup

The **backup software** chosen by thousands of IT admins worldwide.

100k users in 120 countries

SUPREMO

One step further with Remote Support

From a single platform. With unmatched flexibility.

Plug & play

An intuitive interface anyone can use. No registration, no configuration. Download the exe on both ends and you are in.

Feature-rich

Not just remote access. A powerful RMM, a Help Desk toolkit and a Cybersecurity add-on for threat detection, all in one place.

Security as a standard

End-to-end encryption, 2FA, ID whitelist, connection confirmation, settings protection and much more.

Flexible by design

Unlimited enabled devices and users, plus unlimited remote workstations to access. Absolute operational freedom.

PLANS AND PRICES

Simple, transparent and scalable

	Solo	Business	Professional
